

ZOOMAX[®]

Zoomax Snow 10 Pro

**Handy speech, tablet-size screen,
for improving study efficiency**

The human-sounding speech in Snow 10 Pro enhances the ability of students to work and study independently. Words are highlighted on screen as they are spoken. Electronic materials in PDF format can be copied to Snow 10 Pro, providing immediate access for students. OCR lets you scan and convert print-only materials. Headphones can be used if desired.

SUPPORT IN EDUCATION

Study efficiency is vital to students.

For students who struggle to read, learning can be frustrating and hard. Snow 10 Pro speech function helps students complete their assignments more quickly and easily. When students do not struggle so much with reading, their comprehension and learning improves.

What do teachers, students and parents say after using Snow 10 Pro?

“My textbooks are now stored in Snow 10 Pro. It speaks to me as I do my homework.”

- Gregory T. Beam

“Listening to textbooks reduces the time they takes me to study by 20%. Now I have more time to play basketball with my dad.”

- Michael E. Smith

“My son relies on Snow 10 Pro a lot. Desktop video magnifiers may have speech function too but they are heavy and occupy half of his desk. He prefers a smaller and lighter device.”

- Patricia J. James

“Since she started using Snow 10 Pro, Alice has become more active and confident in class.”

- Ms. Waltrip
